Введите в строке браузера адрес **192.168.8.254**

Логин и пароль вводить не нужно, просто нажмите «Enter».

Выберите пункт во вкладке «MAINTENANCE», пункт меню «Backup and Restore», раздел «SYSTEM—UPLOAD SETTINGS» нажмите кнопку «Выберите файл»:

The screenshot displays the D-Link web management interface for a DVG-5402SP router. The top navigation bar includes 'Site Map' and 'Firmware Version : RU_1.01'. The main menu is divided into 'SETUP', 'ADVANCED', 'MAINTENANCE', 'STATUS', and 'HELP'. The 'MAINTENANCE' tab is active, showing a sidebar with options like 'Device Management', 'Backup and Restore', 'Firmware Update', etc. The main content area is titled 'SYSTEM -- SAVE AND REBOOT' and contains instructions to save and reboot the router. Below this, there are sections for 'SYSTEM -- BACKUP CONFIGURATION FILE' and 'SYSTEM -- BACKUP CONFIGURATION TEMPLATE FILE', each with a 'Backup Settings' or 'Backup Template' button. The 'SYSTEM -- UPLOAD SETTINGS' section is highlighted, showing a 'Configuration File' field with a 'Выберите файл' button circled in red, and an 'Upload Configuration File' button. The 'SYSTEM -- RESTORE DEFAULT SETTINGS' section is at the bottom, with a 'Restore Default Settings' button. A 'Helpful Hints...' sidebar on the right provides additional information.

Выберите необходимый файл.

Нажмите кнопку «Upload Configuration File» для загрузки сохраненного файла.

The screenshot displays the D-Link web management interface for a VoIP router. At the top right, it shows 'Site Map' and 'Firmware Version : RU_1.01'. The D-Link logo is prominently displayed in the header. Below the logo is a navigation menu with tabs for 'SETUP', 'ADVANCED', 'MAINTENANCE', 'STATUS', and 'HELP'. The 'MAINTENANCE' tab is selected, and the left sidebar shows 'Backup and Restore' as the active menu item. The main content area is divided into several sections:

- SYSTEM -- SAVE AND REBOOT**: Contains a 'Reboot' button and a checked checkbox for 'Save All Settings'.
- SYSTEM -- BACKUP CONFIGURATION FILE**: Includes a 'Backup Settings' button and a note: 'Note: Please always save configuration file first before viewing it.'
- SYSTEM -- BACKUP CONFIGURATION TEMPLATE FILE**: Includes a 'Backup Template' button and a note: 'Note: Please always save configuration template file first before viewing it.'
- SYSTEM -- UPLOAD SETTINGS**: Features a file selection field with the text 'Configuration File : Выберите файл' and 'файл не выбран'. Below this field, the 'Upload Configuration File' button is circled in red.
- SYSTEM -- RESTORE DEFAULT SETTINGS**: Contains a 'Restore Default Settings' button.

On the right side of the interface, there is a 'Helpful Hints...' section with text explaining the importance of saving configurations and a 'More...' link.

BROADBAND

DVG-5402SP //	SETUP	ADVANCED	MAINTENANCE	STATUS	HELP
Device Management	SYSTEM -- SAVE AND REBOOT				Helpful Hints... Once your router is configured the way you want it, you can save the configuration settings to a configuration file. You might need this file so that you can load your configuration later in the event that the router's default settings are restored. This page allows you to Save the Setting of your router configuration or Restart your router. More...
Backup and Restore	Click the button below to save and reboot the VoIP Router . <input checked="" type="checkbox"/> Save All Settings <input type="button" value="Reboot"/>				
Firmware Update	SYSTEM -- BACKUP CONFIGURATION FILE				
Dynamic DNS	Backup VoIP Router configurations file. You may save your VoIP Router configurations file to a file on your PC. Note: Please always save configuration file first before viewing it. <input type="button" value="Backup Settings"/>
